Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. Acknowledgment is made of applicant's amendment to the claims, wherein claims 1 and 9 have been amended, claim 3 has been cancelled. Claim 3 has been incorporated in claim 1. Accordingly, the scope of the claims has not been altered. Claims 1, 2, and 4-9 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4-7 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakajima et al. (WO 02/031010) for the reasons set forth in the Office Action dated 08/13/2008.

Claim Rejections - 35 USC § 102/103

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 8 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Nakajima et al. (WO 02/031010) with additional evidence provided by www.mrinkjet.com/inkreport.htm for the reasons set forth in the Office Action dated 08/13/2008.

Response to Arguments

7. Applicant's arguments filed 11/13/2008 have been fully considered but they are not persuasive. Specifically, the applicant alleges the followings: (1) Nakajima (above) does not describe or suggest that the surfaces of the pigments are coated with the resin (Remarks, p. 7, first sentence); (2) Nakajima do not teach the utilization of the self-dispersing property of the resin (p. 7, 3rd paragraph); (3) the disclosed polyether-grafted resin does not have the claimed acid value (p. 7, paragraphs 5 & 6). First, Nakajima teaches the coating of the pigments by the resin in paragraph [0047], according to which, the component (A) has affinity for the surface of the pigments and component (B) provides solubility in aqueous medium. Second, the disclosed resin, as mentioned, is self-dispersing in aqueous medium. Third, the disclosed polyether-containing acrylic resins have acid values of 19.6, 5, 38, 50, and 38 as indicated in Table 1.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
